

Front Row: (left to right) Toni O'Rourke, Christy Vogt  
 Back Row: Lynette Black, Mary DiMarsico, DO, Patty Gawf-Garcia, FNP, Veronica Cook

**Lynette Black, Site Manager**

I am a graduate of Morgan County R1 School in Stover. I graduated from Columbia College in 2010 with an Associate of Arts degree in Liberal Studies. I have 16 years of Healthcare Practice Management experience, and have worked for various for profit healthcare organizations. My husband and I are both life long residents of Morgan County. As high school sweethearts, we have been married 13 years. We have three children; Kaylan age 10; and twins Jayna and Jimmy age 5. As the Clinic Site Manager I look forward to being a member of the Prairie Hills team meeting the healthcare needs of the citizens of Morgan County and surrounding areas, through the Mission Statement, "To be a primary healthcare home for people in our service area regardless of barriers to care."

**Christy Vogt, Licensed Practical Nurse/Patient Service Representative**

I am a graduate of Morgan County R2 Schools. I graduated Nursing school in 2006 and obtained my licensure January 2007. I have worked in the hospital, nursing home, clinical and home health settings throughout my career. I have been married to my husband Jody for 13 years. We have 3 children that attend school at Morgan County R2 schools. I am very passionate about my employment at Prairie Hills because it allows me to be a part of a healthcare team that provides services to our patients without discrimination to financial barriers.

**Toni O'Rourke, Medical Assistant/Patient Service Representative**

I am the Medical Assistant/Phlebotomist/Patient Service Representative for Prairie Hills/KTCH. My family and I are life long residents of Morgan County. I started kindergarten and graduated from Versailles High School in 1996, graduated from Metro Business College during the winter of 2010, and began working at Katy Trail Community Health in October 2010. The need for primary care in our area makes Prairie Hills/KTCH a great addition for our community, and makes me proud to be able to help in giving these services to the community.

**Patty Gawf-Garcia, Family Nurse Practitioner**

I have been a Family Nurse Practitioner for 15 years, with experience in family primary care and emergency medicine. As an RN, I practiced in an inner city emergency department for more than 10 years. My Favorite hobby is quilting. I am a piecer and quilter. I piece my quilts together during the week, and then quilt on the week ends. I have a beautiful little 2 year old grandson and soon to have another grandchild. My husband and I are bicyclists. We completed the MS150 this fall, (riding a total of 75 miles in 2 days). Our goal is to complete 150 miles next year. You may see me next spring around town riding my bicycle, I ride 20 to 30 miles a day and 40 to 50 miles on the weekends.

**Veronica Cook, Patient Care Coordinator**

I have lived in Versailles for most of my life. I am a Morgan County RII Alumni, and our three children attend school there currently. My husband and I live south of Versailles, and he attended school at Morgan County RI in Stover. I have an Associate's degree as a Medical Specialist and I am currently working on completing my Bachelor's degree. I worked as a Medical Assistant in Eldon and I then worked as a Medical Biller for several years locally. I have accepted a position with Prairie Hills to work as the Patient Care Coordinator, and I am looking forward to the opportunity because I think we will be able to make a big difference in our community in many ways.

**Mary DiMarsico, DO, Staff Physician**

I have been a member of this community since 1995, and have served it in different capacities over the years. Recently, I have been privileged to have been appointed Medical Director for Citizens for Health and Wellness; and, I now have an association with Prairie Hills/ Katy Trail Community Health. I believe that serving the community via Prairie Hills, will be a nice adventure as we are privileged to supply medical care to the residents in the area, especially those who could otherwise not afford it. I believe that Prairie Hills will be an excellent resource for our county, and hopefully the surrounding areas as well.
